BBS-NJQ: How to list only latest commits in git log? I have a problem listing a few latest commits (just top few). I am using git in combination with Gitweb. In Gitweb, I can easily show all my changes using the "Show all changes" link, but I need to be able to list only the latest few commits. Can you please help me? A: git log --pretty=oneline --abbrev-commit The --abbrev-commit adds the commits' hash to the output. It also adds some info if the commit is "new", i.e. the commit is not listed in the output yet. See the log documentation for more info. People v Gobert (2019 NY Slip Op 08490) People v Gobert 2019 NY Slip Op 08490 Decided on November 27, 2019 Appellate Division, Fourth

Department Published by New York State Law Reporting Bureau pursuant to Judiciary Law § 431. This opinion is uncorrected and subject to revision before publication in the Official Reports. Decided on November 27, 2019
