Hometify - Home Inventory Check List Crack Serial Key Free [Latest-2022]

Hometify - Home Inventory Check List Crack For PC

An easy-to-use software for keeping a track of all of your belongings. It allows you to create an inventory of all your possessions and even share it with your friends or family. Create a table with multiple items that belong to you. View the records displayed in the main window, along with information about the name, room, purchase date, and purchase price. Take a picture of each item included in the inventory and store the pictures in the database. You can preview the inventory reports in new, professional-looking documents. You can print the information and export data to PDF file format, with the option to create text or graphic watermarks for the report. You can also send the report via email as an attachment (e.g. PDF, MHT, RTF, XLS, CSV), set the background color and other options. Hometify - Home Inventory Check List Pricing: This freeware is offered completely free of charge. It is easy to download and install, along with all the features. It does not ask for any registration or any further fees. Hometify - Home Inventory Check List Screenshot: 4 Free Rating: 8/10 Free Auto Backup by: Navigation System Free Auto Backup Description Backing up your precious data is something that should not be taken lightly. Free Auto Backup is a program that offers a solution for home users who want to secure their files and data. The utility is simple to use and easy to set up so you do not have to be a coding expert to get it running. What is Auto Backup? It is a software that lets you keep and restore your files without the hassle of downloading, executing, and running a larger, more complex program. There is no need to open the program, access it, and install any software because the application is automatically downloaded, set up, and running. The Free Auto Backup application allows you to select the storage location to save your files and data. The program can be set up to run on a schedule and automaticly backup your files (all at once or in several increments). What is the size of the application? Auto Backup is a small application that requires little space, so it fits perfectly on most computers. The size of the application is only 1.36 MB so it is very easy to download and install. Is Free Auto Backup safe to use? It is 100% safe to use. The program

Hometify - Home Inventory Check List PC/Windows

Hometify - Home Inventory Check List is a small software application developed specifically for helping you create an inventory of all your belongings. For example, you can keep records for each piece of furniture, including details about the original price and purchase date. Well-structured GUI The tool impresses in the visual department with a clean design and intuitive set of options. Decoding the dedicated parameters won't take much of your time because they look very easy to work with. Create a quick inventory Hometify - Home Inventory Check List gives you the possibility to create a table with multiple items that belong to you. You can view all records displayed in the main window, along with information about the name, room, purchase date, and purchase price. Storing a new record in the inventory can be done by selecting the room type between several preset options (e.g. living room, bathroom, kitchen, bedroom, office, garage, and laundry room), entering the name of the item, choosing the purchase date from the built-in calendar, and specifying the purchase price. What's more, you are allowed to edit each item included in the inventory and delete records that are no longer useful to you. On the downside, you cannot set up new rooms (you are stuck with the predefined options) and store the price in other currencies (it is only displayed in dollars). Preview inventory items and export data A smart feature included in Hometify - Home Inventory Check List enables you to preview a report with all records included in the inventory. You can print the information and export data to PDF file format. When it comes to generating PDF files, you can encrypt data by setting up passwords and provide information about the name of the application, author, keywords, subject, and title. The tool lets you send the report via email as an attachment (e.g. PDF, MHT, RTF, XLS, CSV), set the color of the background, as well as embed text/image watermarks. Text watermarks can be tweaked in terms of direction, font, color, size, transparency, and position, while image watermarks can be configured by specifying the alignment, transparency, and position. The text and image watermarks can be shown on all pages of the inventory or only user-defined ones. Tests have shown that Hometify - Home Inventory Check List carries out a task quickly and without errors. It does not eat up a lot of CPU and memory
